Maybe even better than free.

Simply upload your file and share the link. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. So try our free and simple filehosting service now. Unfortunately, we can't make that part free. If only we could, we surely would! On the other hand, using file can actually save you money. Why pay storagefees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within theirapps. Alternatively you can choose to share your download links on blogs, forums and social networking sites. It is also allowed to link to the download pagefrom websites and communities. There are no restrictions on the number of times a file can be downloaded. Our service is completely free for everyone. Thecost of that data transfer is covered by your internet service or the data plan on your phone. File is free to use with no gotchas and no hidden fees. Using file,you can circumvent those limits without paying to upgrade your team chat service. We have no file size limit. You decide who you want to share your fileswith. You can give this download link to your friends by mail or instant messenger. Keep your files private, or send your download links only to friends orfamily. No account or credit card is required to get started. Any file in any format can be uploaded and downloaded for free. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. You don't need any special software installed to be able to download your files. When you use file,you avoid storing the file you're sending in your cloud storage or mail server. filehosting provides an easy possibility for you to send large files to your friends.You can upload any type of file (movies, music, documents, images, zip files and more). Files can be downloaded from any computer from our high speedservers. Just upload the file you want to share with your friends and we send you a download link to your file. Files transferred the old-fashioned way tend topile up and be forgotten about, eventually costing you money in data storage fees.
