You decide who you want to share your files with. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Keep your files private, or send your download links only to friends or family. Using file, you can circumvent those limits without paying to upgrade your team chat service. Files can be downloaded from any computer from our high speed servers. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friend's device. File is free to use with no gotchas and no hidden fees. Any file in any format can be uploaded and downloaded for free. There are no restrictions on the number of times a file can be downloaded. We have no file size limit. Our service is completely free for everyone. Filehosting provides an easy possibility for you to send large files to your friends. You don't need any special software installed to be able to download your files. No account or credit card is required to get started. Just upload the file you want to share with your friends and we send you a download link to your file.
