Maybe even better than free.

filehosting provides an easy possibility for you to send large files to your friends. Keep your files private, or send your download links only to friends or family. Using file, you can circumvent those limits without paying to upgrade your team chat service. You can give this download link to your friends by mail orinstant messenger. There are no restrictions on the number of times a file can be downloaded. Any file in any format can be uploaded and downloaded for free.Our service is completely free for everyone. File is free to use with no gotchas and no hidden fees. You decide who you want to share your files with.Alternatively you can choose to share your download links on blogs, forums and social networking sites. Just upload the file you want to share with your friendsand we send you a download link to your file. It is also allowed to link to the download page from websites and communities. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from ourservers to your friends device. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You can upload any type of file(movies, music, documents, images, zip files and more). If only we could, we surely would! On the other hand, using file can actually save you money. Filescan be downloaded form any computer from our high speed servers. No account or credit card is required to get started. So try our free and simple filehostingservice now. You don't need any special software installed to be able to download your files. When you use file, you avoid storing the file you're sending inyour cloud storage or mail server. Unfortunately, we can't make that part free. Why pay storage fees for a file that you just wanted to send to a friend orcolleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. We have no file size limit. Simply upload yourfile and share th
