You can give this download link to your friends by mail or instant messenger. Files can be downloaded from any computer from our high speed servers. So try our free and simple filehosting service now. Simply upload your file and share the link. You decide who you want to share your files with. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Unfortunately, we can't make that part free.

Alternatively you can choose to share your download links on blogs, forums and social networking sites. Our service is completely free for everyone. No account or credit card is required to get started. It is also allowed to link to the download page from websites and communities. We have no file size limit. Just upload the file you want to share with your friends and we send you a download link to your file. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Keep your files private, or send your download links only to friends or family. There are no restrictions on the number of times a file can be downloaded. File is free to use with no gotchas and no hidden fees. Any file in any format can be uploaded and downloaded for free. If only we could, we surely would! On the other hand, using file can actually save you money. You don't need any special software installed to be able to download your files.
