Maybe even better than free.

If only we could, we surely would! On the other hand, using file can actually save you money. Just upload the file you want to share with your friends and we send you a download link to your file. filehosting provides an easy possibility for you to send large files to your friends. You decide who you want to share your files with. Files can be downloaded from any computer from our high speed servers. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. It is also allowed to link to the download page from websites and communities. Any file in any format can be uploaded and downloaded for free. You can upload any type of file (movies, music, documents, images, zip files and more). Keep your files private, or send your download links only to friends or family. Alternatively you can choose to share yourdownload links on blogs, forums and social networking sites. There are no restrictions on the number of times a file can be downloaded. Using file, you cancircumvent those limits without paying to upgrade your team chat service. You can give this download link to your friends by mail or instant messenger. Whypay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferredwithin their apps. You don't need any special software installed to be able to download your files. No account or credit card is required to get started. When youuse file, you avoid storing the file you're sending in your cloud storage or mail server. Simply upload your file and share the link. So try our free and simplefilehosting service now. Unfortunately, we can't make that part free. We have no file size limit. The cost of that data transfer is covered by your internet serviceor the data plan on your phone. File is free to use with no gotchas and no hidden fees. This is easy, fast and reliable filehosting! You don't need any kind ofpremium-accounts. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device.
