Hollow knight how to get all charms

Charms are gorgeous, mystical, one-of-a-kind accessories with a spark of power woven into their cores. Just wearing one is enough to change your life! You'll do things you never thought possible! Charms are a special type of Item in Hollow Knight that provide various bonuses and special abilities. Charms use Notches when equipped and can only be equipped and unequipped while sitting on a Bench. There are a total of 45 Charms, though only a max of 40 can be kept at one time, as 5 Charms can be replaced with different ones throughout the game: Notches Charm Notches are required to equip Charms. Different Charms require a different number of Notches. The Knight starts with 3 Notches. 8 more can be found throughout the game, for a total of 11 Notches. Picking up a Charm Notch fully restores the Knight's health. Source Conditions / Requirements Location 1. Sold by Salubra in Forgotten Crossroads for 120 Collect 5 Charms 2. While in this state, damage from all sources is doubled. If all Notches are being used, the Overcharmed state cannot be activated. Activating the Overcharmed state for the first time requires 5 attempts. Being Overcharmed is very advantageous for Radiant fights in the Hall of Gods as there is no drawback to doubling what is already a one-hit defeat.
