Cooking formerly done with hard work and manual labor was now being done by the Bosch Kitchen Machine. Kitchen chores were getting done better and faster than ever before. Housewives were experiencing more free time for themselves, and spending less time cooking. In 1958 Bosch jumped on the bandwagon with the "Neuzeit II" an elegantly designed kitchen machine with a blender accessory on top; it also featured a novel extension arm for a whisk and dough mixing. The Neuzeit II was the perfect kitchen helper for the new age of epicurean tastes. They were Bosch's answer to the growing customer demand for individual options. UM 3 was the predecessor of the MUM 6 series. With its new multifunction arm and design, the UM 4 is a precursor to the MUM 4. With the introduction of the MUM 44 in 1987, which featured an innovative multifunctional arm, the foundation was laid for today's MUM family. This revolutionary design featured a single placement position for all accessories, making it unique in its product category. It was introduced in the USA in 1999 after several refinements were completed. You may have to register before you can post click the register link above to proceed.
